

CRUPP BOILERS (INDIA) PVT LTD

INTRODUCTION

We “Crupp Boilers (India) Pvt Ltd”, are renowned engineering establishment engaged in manufacturing of industrial boilers. We offer a comprehensive range of IBR/Non-IBR Steam Boilers, Hot Water Boilers, Thermic Fluid Heaters, Air Heaters, MS Chimneys, Pressure Parts & Fittings, Oil / Gas Burners, Air Pollution Control Systems, Accessories & Allied Equipment to Boiler Plants & Gas Bullets, to large number of industry.

Based at Delhi/NCR, we have a dedicated team of qualified mechanical engineers and allied professionals who form the backbone of our organization.

Our products aimed at integrating and optimizing the total boiler stack exhaust system to maximize energy efficiency and reliability while minimizing emissions.

We provide businesses the independence from the economic and environmental impact of conventional heating fuels.

PRODUCT RANGE

CRUPP BOILERS (INDIA) PVT LTD

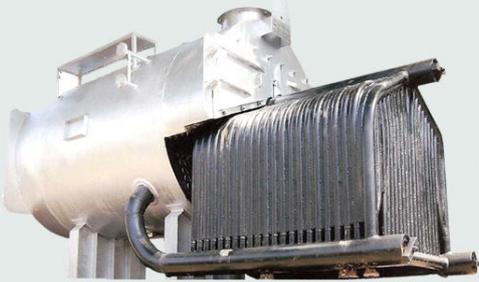

OIL/GAS

Steam/ Hot-Water Boiler

Cool/Wood/Agro Waste

Solid Fuel Fired Boiler

Cool/Wood/Agro Waste

Water Wall Boiler

OIL/GAS

Vertitherm

OIL/GAS

Crupp Thermic

Cool/Wood/Agro Waste

Twin Furnace Boiler

OUR SERVICES

- Advanced Engineering Design
- Dynamic & Technical Analysis
- System & components safely monitoring
- Environment norms compliance
- Non-destructive testing wherever required
- Weld procedures & welder qualification
- Integrated servicing packages
- Material identification & certification
- Automatic/Advance control systems

OUR USP

- Quality Assurance
- Best Performance Corrosion Resistance
- Efficient Functionality
- Robust Construction
- Competitive Pricing
- Customized Solutions

OUR MOTTO

"Quality & Services Above All"
